

Breuning

**SMOKY  
AWARD**

2008 JCK's Jewelers Choice Awards.  
Breuning wins!

The magnetic shade of smoky quartzes, the “sharp” design in 14 kt white gold allowed Breuning, the famous company from Pforzheim (Germany), to win favour with more than 11 thousand retailers who voted the winning parure of the Choice Award at 2008 JCK in the category of coloured gemstones with a retail price lower than \$2500. Prestigious. No doubt, such a result is linked to the smoky charm. However, it is also the extraordinarily current conception of Breuning parure, so up-to-date, so rigorous and dynamic in its logo turned into a spherical charm that not only has crowned this jewel with such a “popular success”, but also has made it the most sought-after of the very many gold and silver Breuning creations by consumers today.
